

Dear Bothers/ Sisters,

As-salamu-'alykum-wa-rahmatullaahi-wa-barakatuh.

During my lifetime, I have watched our community and the international community in deterioration with hunger, crime, greed and injustice. To this date, I have not seen anyone put forward tangible solution/s to prevent this from happening and restoring human dignity. The silent screams of those that are suffering has led me to take up an active role in understanding my religion and to try and remedy the present. I am confident in my findings and hence I have attached the project which is summarised in laymans terms.

I strongly believe the issues that we are faced with today can only be tackled through the establishment of the principles/system as prescribed in The Noble Quran. This system creates a foundation that eradicates human misery in all forms and sizes. It firmly stands up against the evil powers, and its core function is the well being of human lives irrelevant of their backgrounds and beliefs.

The task laid before us by the Merciful Creator will only be achieved through great Sacrifice, Patience and Firm Unity. Therefore, my initial step is to put together a group comprising of individuals with professional backgrounds, who have willingness to go that extra mile without any fear or obstacles, to help me set the wheels of the system in motion. These professionals must include lawyers, entrepreneurs, accountants, and so on and so forth. This group is not confined; instead it stretches its hands to anyone who have the burning desire to see the change where mankind could live in peace with equal rights.

Key phases to implement and to set-up networks around with the following substance.

- ✓ A steering group of key members with skills
- ✓ To set up a system of funding (i.e. Business)
- ✓ To fund group with business. Hence breaking the 9-5 chain
- ✓ Recruiting people to expand into law, agriculture, import/export etc
- ✓ Provide education and supply jobs from within our business's to local community
- ✓ To expand education and help community and youth
- ✓ Create banking System for a self sufficient community
- ✓ Policing and Security
- ✓ And final Central Authority and Sovereignty to Allah

I only ask few minutes of your time to read the attached project with open mind and your feedback will be appreciated. Your input in this noble cause is welcomed with open arms, knowing that it is individuals like yourself that can crystallise these words.

## **Sira-tal Mustakeem (The Right Path)**

The right path is the path illuminated by the text of the holy book, the Quran. Its mission is to guide man towards prosperous future through the establishment of the Islamic system. The Prophet Muhammed (PBUH) accomplished this goal when, in parallel with the deliverance of the message of Allah (SWT), he successfully created the society as well as the system in accordance to the Holy Scriptures.

Unless ones physical action is backed-up by the Divine revelations, it is a grave misconception of any individual to label them selves as Muslim simply because their birth happens to be in the household of a Muslim. The Quran emphasizes the practicality of its guidance on a personal level and on a wider level of development and maintenance of a worldly structure in relation to its architectural plan.

### **Ref 5:44**

*'And anybody who does not obey Quran is a non-believer'*

The Holy Quran is a complete and self-explaining (**Ref 15:1, 27:1**) Book of instructions from Allah (SWT), which was revealed through Prophet Muhammad (PBUH), as guidance to all mankind and not for any particular sect or race. Thus, acting upon the message is obligatory for every Muslim to avoid the mark of kafir (non-believer) in according to the above verse. Declaring the belief in Allah (SWT) and in his last Prophet is not enough for gaining the title of a Muslim. This must be backed by the physical action.

Obeying Quran involves reading to comprehend and to take steps in implementing the learning process in our life style at all levels. Unfortunately, an alien and heart breaking interpretation of obeying the Quran has crept into this prevailing religion, which has destroyed it's greatness and dominance for decades with ceremonies and practices of such things as Parrot fashion reading on the death beds or reciting in the days of Ramadan to gain points or using it's text to perform witchcrafts.

Islam, that should be the dominating force of our planet, has been let down by so called Muslims because majority of things they deem Islamic in fact is far from the truth. Here are few examples;

1. They have dismissed Islam to 5 times daily prayer.

As a matter of fact Islam does not think much of mere rituals when they are performed mechanically and have no influence on one's life.

**Ref: 2:177**

*"It is not righteousness that you turn your faces toward the East or the West, but righteous is he who believes in Allah and the Last Day and the Angels and the Book and the Prophets, and gives his beloved money to his relatives and the orphans and the needy and for the ransoming of captives and who observes prayer and pays the poor-due; and those who fulfill their promises when they have made one, and the patient in poverty and affliction and the steadfast in time of war; it is those who have proved truthful and it is those who are the God-fearing."*

2. Taking the Quran for granted and to be recited in Arabic without understanding. A practice that benefits nobody.
3. They have split into groups such as Sunnis, Wahaabies and Shiates. This has destroyed the unity of Muslim Ummah, which is the backbone of Islam potency and derive. On this point the Quran say's.

**Ref 6:160**

*'O' Mohammed those who have split themselves in groups, you have nothing to do with them'.*

4. Performance of unnecessary Hajj and the false belief of dieing in Mecca guarantees a place in paradise. This view is in contradiction with the Quran, which states that:

**Ref 6:160 & 7:43**

*'You will be entered in Paradise according to your deeds'*

Only and if only the good deeds out weigh the bad deeds, the entry in the Paradise is assured. Furthermore, the primary duty of a Muslim is not the performance of hajj but to ensure the welfare of our love ones, neighbors and a wider circle.

Imaam Ghazzali (R) (Al-Balaagh Vol 18 No2) writes:

*'The rich are very keen on spending on Hajj every year. Many times they leave their neighbors hungry. There are many amongst the men of substance who are too liberal in spending their wealth on the performance of Hajj. They set out for pilgrimage year after year as if they have non-hungry or in want amongst their neighbors'.*

Ghazzali sums up the truth about the present day's hajjis as follows.

***'If a Donkey of Hazrat Easa (A) goes to Makkah;  
when he returns (from Makkah)  
it will still be an ASS!' (NOT a Hajji).***

### **The Suffering**

The painful suffering and degrading of Muslims today is the direct consequence of disregarding the teaching of the Quran. We have taken on practices that are foreign to Islam and have advanced well ahead in the most serious crimes of SHIR-K by associating man made laws to divine revelations. The article published by Yussuf Nazeer in the Al-Balaagh newspaper (V0122 No.3 Aug 1997) defined Shir-k as:

**“An act of ASSOCIATING a human being (prophets, messenger, angel, saint, guru, peer or spiritual master) or some other object (idol, etc) with Almighty Allah”**

Note the following crucial points:

- The law prescribed in the Quran is final and unalterable:

**Ref 6:34 “No-body can change the law of God”**

**REF 6:115 “The code of Divine laws is perfected in truth and in justice”**

- No other material is needed to understand the Quran because it explains itself

**Ref 15:1 or 27:1, “ These are the verses of the book, the Quran that expresses itself clearly and explicit”**

- The non-believer persist for material in opposition to the Quran:

**Ref 18:27, “It is not enough for them We have sent down thee the book which is rehearsed to them?”**

- Prophet Muhammed (PBUH) vigorously prohibited writing anything of him:

**The Hadith Ahmed (Vol. 1, page 171):**

**"Do not write down anything of me except the Quran. Whoever writes other than that should delete it."**

- No man is given the power to intervene in the divine laws, not even the messenger of Allah:

**Ref 3:127 “(O Messenger of God) you are not given the authority to change the laws of Allah”**

**Ref: 5:99 “The only duty of the messenger is to deliver God's message”**

- No man is given the power over any good or harm, not even the beloved prophet (PBUH):

**Ref 7:188 “ Say I have no power over any profit or loss to myself except as according to the law of Allah”**

- Bow before no man even if it has to be the messengers

**Ref 3:78**

*“It is not for any human being,  
Unto whom Allah had given the  
Scripture and wisdom and the office  
Of a Messenger of God, should say to  
People, be subservient to me instead of Allah”*

- No intermediaries are required to communicate with Allah (SWT). The concept that another human being becoming a link between man and God is Un-Quranic. The Quran states:

**Ref 2:186 “And if my servants ask thee (O Prophet) about Me – behold I am near: I respond to the call of him who calls, whenever he calls unto Me; let them, then, respond to Me, and believe in Me, so that they might follow the right path”**

It further says:

**Ref 50:16 “...We are near to him than his jugular vein”**

The obeying of the Quranic text is the only remedy for eliminating the suffering of both the Muslims and Non- Muslims because this Book is the guidance for all mankind. Prophet Muhammed (PBUH) has left no other material except the Quran for the direction

to mankind. This fact is further confirmed by, Bukhari (Volume III, Kitab Fazailul-Quran):

**Ibn Abbas was asked, “What did the Rasool leave (for his Ummat)?  
He replied, “ He did not leave anything except the Quran”**

Allah (SWT) has only taken the responsibility of the Quranic transcripts and it's safeguarding from corrupting forces. Therefore, one must recognize the fundamental reason for departing and maintaining distance from any material that is in conflict with the teaching of the divine revelation.

**Ref 2:120 ‘Say: the guidance of Allah, is indeed the true guidance’**

**Ref 15:9 “ We have without doubt, sent down the message and we will assuredly guard it”**

Healthy and prosperous future will only be assured by complete submission to the Almighty's guidance

**Ref 5:47 ‘Those who do not judge according to what Allah has revealed are unbelievers’**

**Ref 47; 12 ‘Those people who accept the Quran and live accordingly to it will enter Paradise’**

On the Day of Judgment, prophet Muhammed (PBUH) will complain to Allah (SWT) about those people who have ascribed materials other than Quran as a divine law.

**Ref 25:30 "The messenger said, "My Lord, my people have deserted this Quran."**

Following the Sunnah by lengthening the size of ones beard or styling ones hair in certain prehistoric way, will not gain any rewards. The key to the life in paradise is acquired through practices of Divine guidance in all walks of life. There are no alternative paths to bliss and those that took different routes were met by devastation at an immense magnitude. The evidence of this is embedded deep in the history of the earth's soil and in the climate before our eyes.

## **The Enemy In Disguise**

For centuries, the destructive forces of the Muslim Ummah and the hindrance to the establishment of the Islamic System have mainly been the Mullahs, Peers and others like them who have molded the religion to gain personal benefits. They have hijacked mosques and used them as basis for conducting successful business operations under the banner Islam. Their empire has stretched across the globe through clever and shrewd marketing strategy that has blinded the Ummah from thinking logically. Through misinterpretations of divine guidance, introduction of Un-Quranic literatures and practices, they have managed to grip and control the masses to the extent that their actions are followed unquestionably.

Allamah Iqbal writes,

***‘Convey my greetings to the Mullah and Sufis; that they have related the message of God to us. But their interpretation (of this message) has astonished God, Jibreel and Mustapha (S)’.***

He (Iqbal) quite rightly stresses the illiteracies of these hijackers in the words that requires no further explanations:

***‘They do not know the Shariah, nor have they understood or recognized anything; by merely lengthening their beards, they have become Muftis and Mulana’s’***

The Muslims have been given a clear warning in the Quran as regards to these bogus holy men:

***Ref 9:34 ‘O Believers beware of Mullah and wealthy people....They deceitfully and fraudulently consume the wealth of others.. They are the ones who become obstacles to those people who want to go on the right path’***

***Ref 43:37 ‘These people (Mullah) become an obstacle for those people who want a true guidance and they (Mullah) believe that they are on the right in reality they are not’.***

It does not worry the Mullah in the least in what they are doing, is not what the Quran say’s. Allamah Iqbal (RA) highlighted this fact when he said:

***‘The arrogance of the Mullah, O God. Taubha!  
Everything they utter, they say it from God’.***

Furthermore, these (Mullahs) hijackers of our holy places have played a leading role in dividing the Muslims in various sects, the very thing that the messengers of Islam prevented from happening. Muhammed (PBUH) was ordered to maintain his distance from such mosques that creates and practice disunity.

**Ref: 9:108**

***“O Muhammed, do not enter a mosque that creates divisions. You have nothing to do with them”***

### **The Mistake**

Muslims around the world are marching head high, without shame or remorse, on the path of Western and the American ideologies shaped by the extreme Jews, whose hatred towards Islam is evidence before our own eyes. Unfortunately, the Muslims have deliberately closed their eyes and ears to this fact, which resulted in life of hell with family breakdown, stress, depression and suicides.

**Ref: 7:179**

***"And surely, We have created many of the jinn and mankind for Hell. They have hearts wherewith they understand not, and they have eyes wherewith they see not, and they have ears wherewith they hear not (the truth)..."***

The Muslim ummah has adapted the prohibited practice by Islamic Law of hoarding up of the wealth. This now is the prime goal of this degraded ummah that is to be achieved at any cost. They will go to any length to fulfill this mission, including the killing of their love ones, mentally and physically, stealing the rights of the orphans & the needy. There is no limit to their action. Their eyes have become bigger than their bellies, selfish animals that have no sympathy for others.

**REF 47:12 ‘.....*The meaning of the non-believers life is to take advantage of the other and they eat like animals. Their place will be Hell*’.**

Hell is not a temporary place as is widely believed by many Muslims. Once this is granted, you will remain there indefinitely. The Quran warns of this fact:

**Ref 2: 39 ‘*The unbelievers will be sent to Hell and they will remain their forever*’**

The opportunity to repent and avoid the terrible punishment of hell is only available to mankind here, on the planet earth. This chance is not available in the next life hence; consider each breath as a blessing from our Merciful Creator.

### **Objective**

The objective of the Quran is to establish a universal system that ensures the welfare of mankind by taking full responsibility of their fundamental needs. The system will be accountable for the provision of food, shelter, security, education and law & order. Once established, it guarantees paradise like environment where every man / women is treated on equal basis and moreover it creates opportunities for individuals to develop spiritually so that his/hers life of glory continues hereafter.

Furthermore, Muhammed (P.B.U.H.) demonstrated by productively implementing the divine system of the benefits it presents. This established system was praised by Dr Abdul Wadud in the book entitled 'Conspiracies of the Quran' (Page 57) as follows:

*'..... there was a rule of law in the perfect sense and the people enjoyed freedom undreamt of in human history. There is no priesthood and the people lived in world free from superstitions and their mental facilities to develop. There is no capitalist exploitation, a head of the state and a common man has exactly the same living standards, the wealth circulated amongst people like blood circulating amongst people like blood circulating, each component part of the body getting its due share of nourishment'.*

### **Sacrifice**

***“When I say that ‘I am a Muslim’, I shiver because I KNOW the difficulties of LAA ILAAH”***

(By Allamah Iqbal)

A great sacrifice of ones life, not of sheep or any other animals, is required to achieve the tasks laid down before us by the holy Quran. This involves complete dedication and submission to divine laws as demonstrated by Prophets Abraham and Noah. Their devotion to the Divine objectives was such that everything they possessed, including their love ones, was at their disposal for sacrifice without any hindrances. This sets an example that nothing should become an obstacle, if we are to accomplish Allah (SWT) blessings.

**REF: 9:24**

*'O Mohammed let these people know that if they want to achieve our goal then nothing should become an obstacle in your way be it your Father, Son, Brother, Wife, tribe, wealth, business, house, you love dearly. And if these things do become dearer to you that Allah and his messenger, on the day of judgment you will be punished severely'*

Paradise promised by the Almighty will not be blessed by few simple religious ceremonies such as daily 5 times bowing on Massalla (Pray Mat) or holidays to Mecca in excuse for Hajj. This blissful life can only be gained through Jihad (struggle), hard work, patience, sacrifice (practically not verbally) as engraved in the holy transcripts and in the actions of every Prophet.

**REF: 2:25**

*'Do you think you will ever enter Jannat while Allah has not yet known from amongst you who have strived HARD...?'*

**REF: 9:16**

*'Do you think you will be left alone while Allah has not yet known of those who struggle HARD....?'*

The editor of the **Al-Balaagh (Vol 16 No1)** emphasizes:

*'The people of Allah, or the TRUE muslims, EARN Jannat through HARD WORK – not by “Zikr” and Wazeefah”, sitting comfortably in an air-conditioned mosque!'*

A South African poet, Mualana Mirza Jommal Al-Qadiree writes:

*'Learn to EARN Jannat from those who have true love for Allah, Jannat has been earned through great difficulties.'*

Allamah Iqbal echoes the same sentiment when he inscribes:

*“If you have the guts, then create your own Jannat (through hard work); the punishment of Hell is preferable to a Jannat given as a ‘Bakhshish’ (gift)”*

Those who abide by the divine guidance irrelevant of the circumstance, Allah have promised them a paradise in return for keeping their side of the bargain. Note that upon

declaring oneself Muslim an automatic **psychological contract** is drawn up with the merciful Creator, which involves a gateway to Paradise for the sacrifice performed in accordance to Quranic text.

**Ref 2:25**

*‘And give good news to those who do good DEEDS, that for them are Jannats in which river flow.....’*

### **Transformation**

Change to current climate of economic misery will not improve miraculously unless mankind takes the initiative. The intervention of Divine support is disposed subsequently.

**Ref: 13:11**

*“Lo! Allah does not change the condition of the people until they themselves (change) what is in their own selves”.*

And if the steps are not taken to implement the change in relation to Quranic teaching, the life of hell is inevitable both on earth and in hereafter.

**Ref 47:38**

*“ And as for those who disobeyed Allah, their situation here and the life after will be Hell”.*

But those that carryout the divine mission and remained firm on this path, they are assured of victory that has been sealed for them by the All-Merciful Allah (SWT).

**Ref NO 3:139**

*‘Do not loose your strength (hope)  
don’t be frightened – if you are a true Muslim  
victory is on your side’*

# **THE FORMULA FOR A JUST SYSTEM**

## **Introduction**

The economic solution offered by the Quran ensures that the wealth of the nation flows like the blood in the body of a man where every part receives the required dosage for healthy functionality. It eliminates poverty once and for all by securing the deliverance of basic and vital needs of mankind.

In comparison, the current economic environment has brought poverty, misery, jealousy and violence. It allows individuals to pile up wealth, which results in the consumption of the entire nation resources by a handful of people whilst the remaining that suffers is left with making the ends meet.

### **Ross Kemp On Gangs:**

**“10% of Brazil population consumes 80% of the country wealth”**

Furthermore, the international activities of Western countries and America have devastated the globe by their prolonged suction of majority of the world's reserves. This selfish act leaves the vast population with very little to survive on thus giving rise to war, famine, hunger and death to millions.

The inhumane & evilness of present economic practices of the developed countries encompasses the price maintenance of food via surplus hoarding and its subsequent destruction instead of distribution to needy States or individuals. Their venomous behavior exploits the disadvantaged nations to the extent that the third world countries are unable to stand on its own feet. This is the very goal of the new world order or so called free trade & globalization.

**William Aberhart** - Premier of Alberta's first Social Credit Government 1935-71  
(Commonplace Book page 15):

**“Food is rotting in warehouses, being burned and dumped into the sea. It is the money system destroying food to maintain prices.”**

## Greed

“Christianity & Moral Issue” by Anne Jorden (page 102)

**‘There is enough food in the world if it is shared out equally’**

Mankind is blessed by the nature with resources far more than his needs. Therefore, the problems presented by the existing economic system are not due to lack of supplies but the greed of men. This is the very cause of the man's painful screams that echoes the globe from poverty, injustice, stress and hopelessness.

Robert Paisley & John Quillfeidt writes (‘GCSE ECONIMICS’ Page 2):

**‘Economic problems arise because people nearly always want more then they already have. This is obviously true of a starving child in a developing country, but it is just as true of a nurse in the UK or even of a film star in Hollywood’.**

Like a cancer that destroys man’s inner system, greed devastates societies and turns man into an animal. His purpose in life changes from spiritual development through good deeds to materialistic. He becomes slave to wealth both physically and emotionally. His contaminated mind is unable to think logically and the selfish development ignores the plight of the needy.

## Usury & Accumulation

The strength of the Islamic economic foundations is due to the eliminations of **usury** and **piling of wealth**. Both of these diseases have suffocated man for many decades. Note the following references from the Quran:

- **Ref 9:34**

*‘.....And those who save Gold and Silver and do not spend in the way of Allah, they will be punished severely’.*

- **Ref 104:2-7**

*‘(There is destruction for) one who piles up wealth and then goes on counting it, thinking that his wealth would last forever ...’*

- **Ref 2:129** it says

*‘.....When they ask you how much do we spend in the way of Allah, say give away all the EXCESS’.*

- **Ref: 2:275**

*“Allah has permitted trade and forbidden Usury”.*

- **Ref 2:278-279**

*‘O you who believe, fear God and let go of interest which is due to you if you are believers. And if you do not do this, then be warned of war (against you from God and his prophet...)’*

The Catholic Church in the Twelfth Century recognized the deadly impact of the usury on the society and condemned its practice in the harshest manner possible. In the book entitled ‘Banks’, Peter Lane (page 17) writes,

**‘.....a fire might have destroyed a man house or a disease might have attacked his crops or his flocks. To charge interest to such an unfortunate fellow Christian, a Brother-In-Christ, for the money which he needed to start up again was seen to be immoral’.**

**‘Those people who did make a life out of lending brought trouble upon their own heads. In the Streets nearly all of the Medieval Towns the counting houses of the money lenders, who charged whatever they felt they could get away with – 20,30 or 40%, so that many borrowers spent their lives to pay of the interest and sometimes never managed to pay back the sum they borrowed in the first place’**

**‘.....One of the reasons for frequent persecutions of the Jews from the Middle East onwards was their association with the business of money lending’.**

In addition, the New King James Bible also stands firmly against the practice of usury with references scattered throughout its scriptures (Ezekiel 18:13):

**“he has exacted usury Or taken increase -- Shall he then live? He shall not live! If he has done any of these abominations, He shall surely die; His blood shall be upon him.”**

Jesus (PBUH) physically dealt with those who dealt in such a trade:

**"In the temple He found.....the money changers seated at their tables. Making a whip of cords, He drove all of them out of the temple..... He also poured out the coins of the money changers and overturned their tables" (John 2:14-15).**

Unfortunately, today the economic system is driven globally by the evil forces of usury with consequence of immense gap appeared between rich and poor. This has lead to hatred, corruption, war, distress and family breakdowns at an unimaginable scale. Society is crying out for a freedom from the smothering of this brutal system but sees no alternative. The despair is visible on the faces of vast majority of the people on the planet, even the smiles are temporarily or pretence.

However, the Quranic system is the only system that offers real solutions to man made problems. Through trial and error, whether knowingly or unknowingly, man is adapting the elements of the divine structures. For example, the Western welfare benefits structure, health, education and law systems.

## **Mechanism**

The attached diagrams outline various stages in implementing the divine mechanism. Practically, it is not possible to transform the worldly affairs in one go but an incremental approach to change is more realistic.

With the aid of Divine knowledge and careful consideration of present positions, the following methodology to change is believed to be appropriate, efficient and effective:

- An establishment of a group with able and dedicated individuals from professional backgrounds such as Accounting, Marketing, Economic, Law & Business. Their initial task is to resolve financial issues through the establishment

of businesses, which in turn will become crucial source of income for both members and the group ultimate goals. (See Appendix 1)

- Appendix 2 illustrates key business activities required to strengthen both legal and economic foundations. Expansion in this area will ease the process of full-scale transformation when it takes place.
- Next stage of the development cycle is the implementation of the education system. This is a crucial factor for preparing and supplying the appropriate manpower resources required for the establishment, maintenance and expansion of the Islamic ideology. Without the right candidates the journey to crystallize the Divine plan will become unfeasible. (See Appendix 3).
- Appendix 4 outlines the education structure. In parallel with the Quranic teaching, physical training must be provided to help individuals with self-control thus attaining both physical and spiritual standards. Furthermore, modules within the curriculum should be backed up by references from the Holy Scripture. An important ingredient for strengthening ones belief, motivating learning and appreciating the blessing of Allah (SWT) bestowed to man.
- As the cycle enhances, the management of the wealth needs to be addressed through the introduction of the banking system that will ensure control and the efficiency in distribution of resources. (See Appendix 5)
- In conjunction with the above, instigation of security is critical for protections as well as for overcoming the forces of hindrances. Unlike the current segregation, each individual within the security sector must be able to provide both the policing and military services. Moreover, the security training must not be confined to this sector only, but an obligatory for all those who accepts and maintains the divine plan. (See Appendix 5 & 6)
- The mechanism demonstrated in Appendix 1 to 6 must be replicated throughout the globe with central controls and co ordinations. This machinery backed with solid parts and foundation can now initiate the systematic demolition of present political, financial and other ruling institutes. Thus replacing the sovereignty in the safe hands of the divine book, the Quran.
- Appendix 7 & 8 shows the ultimate target of the divine system, with central authority placed at the Masjid-e-Haram in Saudi Arabia. Any rule, law or changes (agreed by the authority within the light of Quranic text) becomes obligatory for mankind to implement within their geographical location.

Note that this authority will be fully responsible for the welfare of the entire globe. This includes both living and non-living things.

## **Conclusion**

Whether or not we are able to achieve this system in our life time is irrelevant. What is more important is the initiating of the process and firmly embedding of the tools for continuous development. There is no doubt in my mind the inevitability of the appreciation and recognition of this by our future generation.

**"That's one step for a man, one giant leap for mankind."**

(Neil Armstrong July 31, 1969)

Provided we remain firm, focus and dedicated to our task before us, the divine assistance is assured and triumph inexorable.
